**Project:** Wilson Hill Elementary School Kindergarten Playground  
**Beneficiary:** Wilson Hill Elementary School Kindergarten Staff  
**Date:** Construction: May 9, 2009 Installation: July 18, 2009

**Project description:** This project was designed to improve the quality of the Wilson Hill Elementary School Kindergarten Playground. To do this, three benches and a tool shed were built and installed in the playground. In addition, a garden was created to allow the kindergartners to experience growing vegetables, and the existing flower garden was weeded. Also, two each of hop-scotch and four square courts were painted on the asphalt, and a four-way basketball hoop was planned to be inserted.
