**Project: Blendon Woods Metro Park - Cherry Ridge Program Area**

**Beneficiary: Blendon Woods Park and local community and youth programs at Cherry Ridge**

**Date: August 22, 2009**

**Project Description:** Improvements at the Cherry Ridge program area in Blendon Woods, including The construction of 1 1/2 rows of benches, a new circular fire ring, and a bird feeder, plus mulching the program area.

The new benches were built behind the two existing benches and then all benches and the existing stage area were stained to make all the wood the same color.

The new circular 36" fire ring was constructed out of natural stone (provided by Metro Park) and a new birdfeeder was constructed to replace the existing one. The entire program area was mulched to make the area look nicer.
